SEE@ASU Frequently Asked Questions

What will my child be learning at camp?

During the week of camp the SEE@ASU program takes students through the 25 different degree programs we offer within the Fulton Schools. Our faculty facilitate lab tours and hands on activities to assist the students in understanding what the different disciplines are, and what the career outcomes are from these programs. You can review some of our faculty here, and our faculty research areas here. We will also go into all of the different opportunities available to students in our program (e.g. research, the career center/fairs, residential life, etc.). At the end of the week, students will work with our ASU Admissions team to complete the ASU application. They will also hear from our Financial Aid team and the Barrett, Honors College.

Will I be able to sign my child out for a doctor’s appointment?

If at all possible, please try to reschedule your child’s doctor appointment. However, exceptions will be made for serious medical treatment.

How much money should my child take with him/her?

The cost of room, meals, and snacks is covered by the program fee. Participants will not be expected to pay for any fees that the program will already cover. However, if they choose to make additional purchases (e.g. vending machines, mini-market or bookstore) they have to do so with personal funds. Prior participants have brought $50-$100 to cover these purchases.

Who will help if my child needs to take medication?

The participant is highly encouraged to bring any prescribed medications sufficient for the entire length of the program. Medication should be kept in a safe and secure place. The SEE@ASU staff is not trained to manage prescribed medications for participants. Staff is not allowed to give any form of over the counter (OTC) medication for immediate relief. The participant must bring his/her own OTC medication (Tylenol, Advil, etc.), if needed. Any medications or special needs should be indicated in the Dietary Restrictions and Medical Conditions section in the Return Forms packet.

My child requires a special diet. Are special meal plans available?

Please indicate any dietary restrictions on the Return Forms packet to help us prepare for catered events. Regular meals will be served in the dining facilities on campus. You may visit the campus dining website at sundevildining.asu.edu for more information. While we will do our best to accommodate dietary restrictions, we encourage students with these needs to bring supplemental snacks.

Will I be notified if my child needs ASU health services?

Parents will be immediately notified of any health incident. If treatment is suggested by a health official, the parent/guardian will be asked for approval prior to administration of treatment and cost. If incident occurs during the day, student will be immediately taken to health services. If incident occurs at night, 911 will be called.
Where will my child be staying during camp?

Campers will reside in Tooker House, our Fulton Schools residential community that opened in August 2017.
